Restroom Security Locks

*Since 1910*

## Controlled restroom access can make restroom security easy, inexpensive, and help reduce vandalism and mischief!

Owners of restaurants, service stations, retail stores and other commercial businesses will readily tell you...when it comes to public restrooms, security is a major problem. People want and need clean and safe public restroom facilities, but business owners find it both difficult and expensive to provide for the personal security of the restroom user and the security of their property.

With free and open access, the personal safety of the patron can be in jeopardy. With open access, people have little or no respect for the facilities. They mark walls, throw trash, abuse fixtures, break equipment, steal supplies and conceal shoplifting.

Now there is a way to secure your restroom facilities, protect patrons, reduce damage and lower the cost of maintenance...by controlling access with the very dependable Nik-O-Lok™ Token Only or Token/Coin Operated Security Locks. This is a time-tested design that has been providing dependable solutions for almost 100 years!

Nik-O-Lok™ Token Only or Token/Coin Operated Security Locks not only secure your restrooms, but they can also provide a new source of revenue and improve relations. Here's how...

## NIK-O-LOK Token & Coin Operated Security Locks

provide the following solutions:

- #1 **REDUCED VANDALISM** - Controlled access to restrooms substantially reduces chances of vandalism, and the stealing of equipment and supplies.
- #2 **LOWER MAINTENANCE TIME AND COSTS** - Patrons prefer controlled facilities. They feel safe. It gives them incentive to keep facilities cleaner. Your cleaning time and maintenance costs can be greatly reduced.
- #3 **REDUCE INVENTORY SHRINKAGE** - Controlled access to restrooms (via tokens) reduces the opportunity of individuals to use the restrooms as a haven to conceal shoplifting activities.
- #4 **ADDED REVENUE** - You keep all the coins deposited in the locks! In most instances, lock revenue is sufficient to offset the cost of the monthly rental fee and even provide a new source of income to offset expenses.
- #5 **PROTECT PATRONS** - For a single occupancy restroom, the lock can be equipped with a privacy attachment inside the restroom door that helps insure the personal privacy and safety of anyone using your restroom. The lock is automatically reset as the patron leaves.

### NIK-O-LOK PRODUCT FEATURES:

- **AVAILABLE THREE WAYS** - Nik-O-Lok™ Security Locks can be built to accept **tokens only**, **tokens and 25¢ coins** (quarters), or **25¢ coins (quarters) only**.
  - Token-only operated locks provide you with enhanced security by limiting access to only your customers.
  - Our Token/Coin Operated locks provide free, convenient access for your customers (via token) and a new source of revenue for you from non-customers who must use a quarter.
  - Coin-only locks provide revenue to offset expenses.
- **STURDY CONSTRUCTION** - Nik-O-Lok™ Security Locks are time-tested design & quality built for dependability and long life with cast heavy-duty, weatherproof, chrome-plated casings, brass internal mechanism, a pickproof cash door and ADA compliant handles.
- **VARIABLE APPLICATIONS** - If your restroom access is outside or exterior, the locks can be used as regular locks to secure your facilities when you are closed. Or, if your restrooms are inside, you may deactivate the locks when desired such as during peak mealtimes in a restaurant. Every lock is supplied with a pass key that allows authorized personnel access at any time.
- **EASY SERVICE** - For service, we maintain a toll-free telephone number you may call for replacement equipment. Replacement locks or parts are provided at no charge, and we pay for all shipping.

- **LOW COST LEASE BASIS** - These security locks are available on a lease agreement for a low monthly rental fee per lock. Payment can be made monthly, quarterly, semi-annually or annually either invoiced or by credit card. A discount is available for those who choose to pay annually. There is a refundable security deposit of \$25.00 per lock required at time of installation.\*

---

We will supply the lock, proper door signage, 200 free tokens per lock, an installation template and complete installation instructions. In most cases, you can install the lock yourself in less than an hour.

---

*\* The \$25.00 security deposit is refundable upon the return of the equipment at time of the lease cancellation. The deposit is not refundable during the first year of the agreement.*

**Special Offer available on the West Coast!**

In the Los Angeles, San Diego and the San Francisco Bay areas, we can utilize our own factory service personnel to install and maintain the locks for you. Call for more details.

**-- HOW TO ORDER --**

To order, simply call our toll free number listed below. We will forward to you a lease agreement prepared to your specifications. Simply return the signed agreement together with your first month's rental, and the security deposit(s) required. Your equipment and installation materials will be shipped to you pre-paid, normally within one or two days, or if available, arrangements will be made for the equipment installation.

**Now is the time to secure your restrooms, lower your maintenance costs and stop non-customer abuse!**
